First Baptist In Pahokee Sets New Schedule Oct. 6th

The First Baptist Church of Pahokee will begin a new time program for their Sunday evening services on this coming Sunday, October 6th. The Worship Service will begin at 6:00 in the church sanctuary with preaching by the Pastor, the Reverend Guthrie Colvard. The sanctuary service will be concluded at about 6:45 with the Church training program, the Training Union to follow. The Training Union activity will be concluded at about 7:50.

This type of program has been tried by a number of churches in other cities and has met a real need in the lives of the families. The families with young children can have the privilege of worship and training on Sunday evening without being out so very late. The older people like this program because they can be home at an early hour in the evening, and this meets their need in a very positive way.

The First Baptist Church welcomes you to each of these services.

Seaquarium Has White Porpoise

MIAMI—A love nest with underwater picture windows will be built at the Miami Seaquarium for Carolina Snowball, the world's only white bottle-nose porpoise in residence at an aquarium.

Carolina Snowball's new home will consist of two pools with a bank of large windows through which spectators can view her underwater.

"The new pool will allow us to continue Snowball's training in an unusual way," explained Burton Clark, Seaquarium general manager. "People will swim in water with her regularly and we hope that she will soon be giving the swimmers a ride."

Snowball's son, Sonny Boy, will live in the smaller of the two connecting pools. Sonny Boy is about four years old and the Seaquarium plans to cross-breed the two porpoises.

Tom Adams To Visit Colombia Oct. 8-14

TALLAHASSEE — Secretary of State Tom Adams has accepted a formal invitation from the Organization of American States to spearhead a goodwill mission to Colombia, Oct. 8-14.

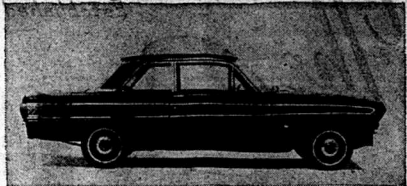

This is the first time in the history of OAS that a state official has been invited to represent an individual state on such a mission. Usually, the OAS conducts relations between national governments only.

The invitation came from Dr. Marcos A. Kohly, regional director of the OAS in Miami to Adams. Kohly said the purpose of the mission is to "strengthen the cultural and commercial ties" between the Republic of Colombia and the State of Florida.

Kohly told the Secretary of State, "We observed with interest and true admiration the very fine 'Operation Diplomat' program conducted by your office during the past two years. This program of direct relations between the government of your state and the governments of friendly nations around the globe, constitutes a

unique and promising approach in the field of international relations."

Mr. and Mrs. Ed Smith of Fort Lauderdale visited Mr. and Mrs. Earl Maxson in Canal Point, last weekend.

Although it retains its handy compact size, the Ford Falcon has an exciting new look of action for 1964. Completely restyled for the first time since its introduction four years ago, the new Falcon offers added comfort inside, improved economy and a softer, big-car ride. Both tall and short drivers will find the visibility improved and the seating position more comfortable. The Falcon matches its look of action with a choice of engines ranging from the economical 144-cubic-inch six-cylinder, to the high performance 268-cubic-inch V-8. The Falcon has the widest model choice in the compact field with 17 models in five series including 2- and 4-door sedans, hardtops, sports coupes, convertibles, station wagons and the Station Bus, Club Wagon and Deluxe Club Wagon. They will be introduced in Ford dealer showrooms September 27.

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

The Treasury explains why the new ones you buy and the ones you own now are better than ever

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{2}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $1\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.
